

Demo Report - 2020-11-01

Create custom localized reports

They are 100% customizable in terms of style, layout and content

You can export them as:

Excel

PDF

Print

PowerPoint

CSV

Word

Ideas for helpers

Reports (e.g. sales, finance, marketing)

Mailing generator based on pre-defined layouts

Document generator based on pre-defined layouts
Calculators (e.g. margin and price calculators)

Data Source

You can provide data for the helpers in many different ways

Manual user input

File upload (e.g. excel, csv)

Database upload (e.g. sqlite)

Database connection to local or remote database

External APIs

Internal APIs (everything from the Orange Management backend)
